

HazCheck Products and Services Summary

The following HazCheck products and services are available to HazCheck participants from the Victorian Automobile Chamber of Commerce (VACC).

Please refer to the following pages in this section for further information and use the HazCheck Products Order Form to order any item or to make further enquiries.

- HazCheck Manual
- HazCheck Online and Updates
- HazCheck Decals, Decal Sets and Warning Decal Sheets
- HazCheck Inspection Tags and Out of Service Tags
- Farm and Industrial Machinery Safety Training Guide
- HazCheck Training
- HazCheck Audit Service

HazCheck Manual

The VACC HazCheck Manual will enable you to satisfy your duties under OHS legislation concerning the sale of hazardous machinery and any visits to your site by WorkSafe (WorkCover) inspectors.

The VACC HazCheck Management System is a copyright publication developed for farm machinery dealer businesses, by the VACC. It is available in hard copy or online for use within registered participating businesses.

Please note: Unauthorised reproduction or use of HazCheck Forms is an infringement of copyright.

Benefits of HazCheck:

- You control all documentation & records
- You control the risk assessment process, not a consultant or a computer program that never sees the machine or talks to the computer
- Your staff are trained in risk assessment
- Nationwide industry support and expertise
- Helpline assistance

Risk Assessment Competency for All Staff

HazCheck enables you to train all relevant staff in the important ability to undertake risk assessment. This competency ensure your staff can fulfil their duty to provide risk assessment on every machine sold, rather than to rely upon risk assessment provided in isolation from the actual machine or its intended application.

Pricing

Refer to the HazCheck Products Order Form for pricing.

HazCheck Online

HazCheck online offers the manual in a 'soft copy' format to enable procedures and forms to be downloaded, printed, or saved electronically. It is recommended that HazCheck online participants maintain an up to date hard copy of the documents.

HazCheck News

HazCheck News updates will aid to keep you informed of important agricultural machinery industry related issues. HazCheck online also offers users peace of mind that their copy of HazCheck is entirely up to date, as users are notified of updates via email. This process of delivery ensures you will be notified of, and will have instant access to, the most current revision of HazCheck. Rather than having to pay for each update when it is offered by letter, you can simply login to the website and print off the updated forms you require.

Benefits to Online Subscribers

- Electronic access to all HazCheck Procedures, Forms and Reports
- Instant update and access to the latest revision
- Relevant email news items
- One annual subscription feed

Pricing

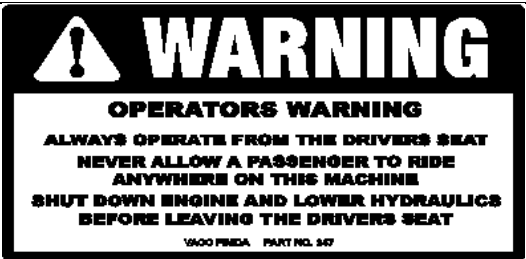

Refer to HazCheck Products Order Form for Pricing.

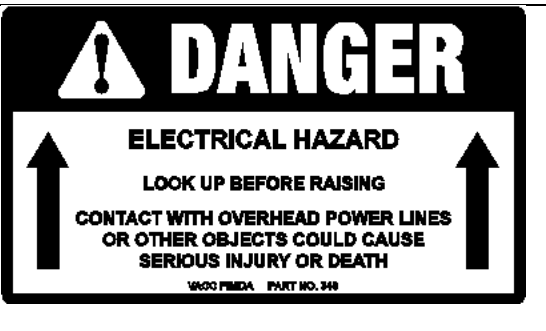

HazCheck Decals

HazCheck decals are available to all farm machinery dealers. The following decals are printed with black text on high quality yellow vinyl, unless otherwise indicated.

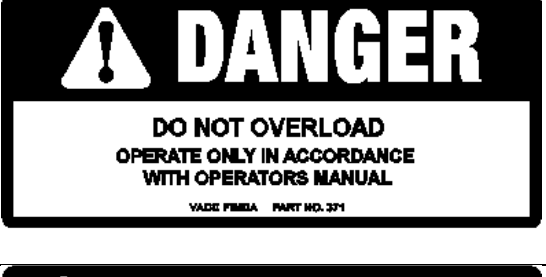

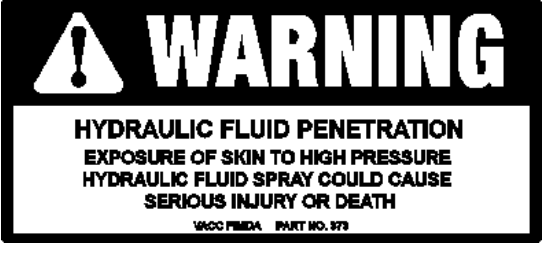

HazCheck decals specified by HazCheck Final Inspection Reports provide tangible proof that purchasers of hazardous machines have been given relevant information regarding the need for risk controls.

Refer to the below illustrations for further information.

	Size	Order Reference No.
	Large Label 85mm x 90mm 12 Labels per Sheet	Decal Sheet DS345
	Medium Label 90mm x 60mm 20 Labels per Sheet	Decal Sheet DS346
	Small Label 90mm x 50mm 24 Labels per Sheet	Decal Sheet DS347

	<p>Small Label 90mm x 50mm 24 Labels per Sheet</p>	<p>Decal Sheet DS348</p>

 <p>! DANGER ROTATING AUGER HAZARD THIS AUGER MUST NOT BE OPERATED WITHOUT A GUARD THAT PREVENTS ACCESS TO ROTATING COMPONENTS <small>VACC FIMDA PART NO. 388</small></p>	<p>Small Label 90mm x 50mm 24 Labels per Sheet</p>	<p>Decal Sheet DS380</p>
 <p>! DANGER BATTERY EXPLOSION MAY OCCUR IF INCORRECTLY CONNECTED ALWAYS CONNECT POSITIVE TERMINAL FIRST MAKE FINAL CONNECTION OF NEGATIVE TERMINAL AWAY FROM BATTERY TO ENSURE THERE ARE NO SPARKS NEAR THE BATTERY <small>VACC FIMDA PART NO. 391</small></p>	<p>Small Label 90mm x 50mm 24 Labels per Sheet</p>	<p>Decal Sheet DS381</p>
 <p>! DANGER  <small>FIMDA PART NO. 382</small></p>	<p>Large Label 85mm x 90mm 12 Labels per Sheet</p>	<p>Decal Sheet DS382</p>
 <p>! WARNING  <small>FIMDA PART NO. 383</small></p>	<p>Large Label 85mm x 90mm 12 Labels per Sheet</p>	<p>Decal Sheet DS383</p>

	<p>Medium Label</p> <p>90mm x 60mm</p> <p>20 Labels per Sheet</p> <p>Note:</p> <p>Only available in Sheet format, not included in Decal Sets</p>	<p>Decal Sheet DS356</p>
	<p>Large Label</p> <p>85mm x 90mm</p> <p>12 Labels per Sheet</p> <p>Note:</p> <p>Only available in Sheet format, not included in Decal Sets</p>	<p>Decal Sheet DS385</p>
	<p>Large Label</p> <p>85mm x 90mm</p> <p>12 Labels per Sheet</p> <p>Note:</p> <p>Only available in Sheet format, not included in Decal Sets</p>	<p>Decal Sheet DS386</p>
	<p>Large Label</p> <p>85mm x 90mm</p> <p>12 Labels per Sheet</p> <p>Note:</p> <p>Only available in Sheet format, not included in Decal Sets</p>	<p>Decal Sheet DS387</p>

	<p>Large Label</p> <p>85mm x 90mm</p> <p>12 Labels per Sheet</p> <p>Note:</p> <p>Only available in Sheet format, not included in Decal Sets</p>	<p>Decal Sheet DS388</p>
	<p>Small Label</p> <p>90mm x 50mm</p> <p>24 Labels per Sheet</p>	<p>Decal Sheet DS389</p>
	<p>Small Label</p> <p>90mm x 50mm</p> <p>24 Labels per Sheet</p> <p>Note:</p> <p>Only available in Sheet format, not included in Decal Sets</p>	<p>Decal Sheet DS390</p>
	<p>Small Label</p> <p>90mm x 50mm</p> <p>24 Labels per Sheet</p> <p>Note:</p> <p>Only available in Sheet format, not included in Decal Sets</p>	<p>Decal Sheet DS391</p>

	<p>Small Label 90mm x 50mm 24 Labels per Sheet</p> <p>Note: Only available in Sheet format, not included in Decal Sets</p>	<p>Decal Sheet DS392</p>
	<p>Large Label 85mm x 90mm 12 Labels per Sheet</p> <p>Note: Only available in Sheet format, not included in Decal Sets</p>	<p>Decal Sheet DS393</p>

Pricing

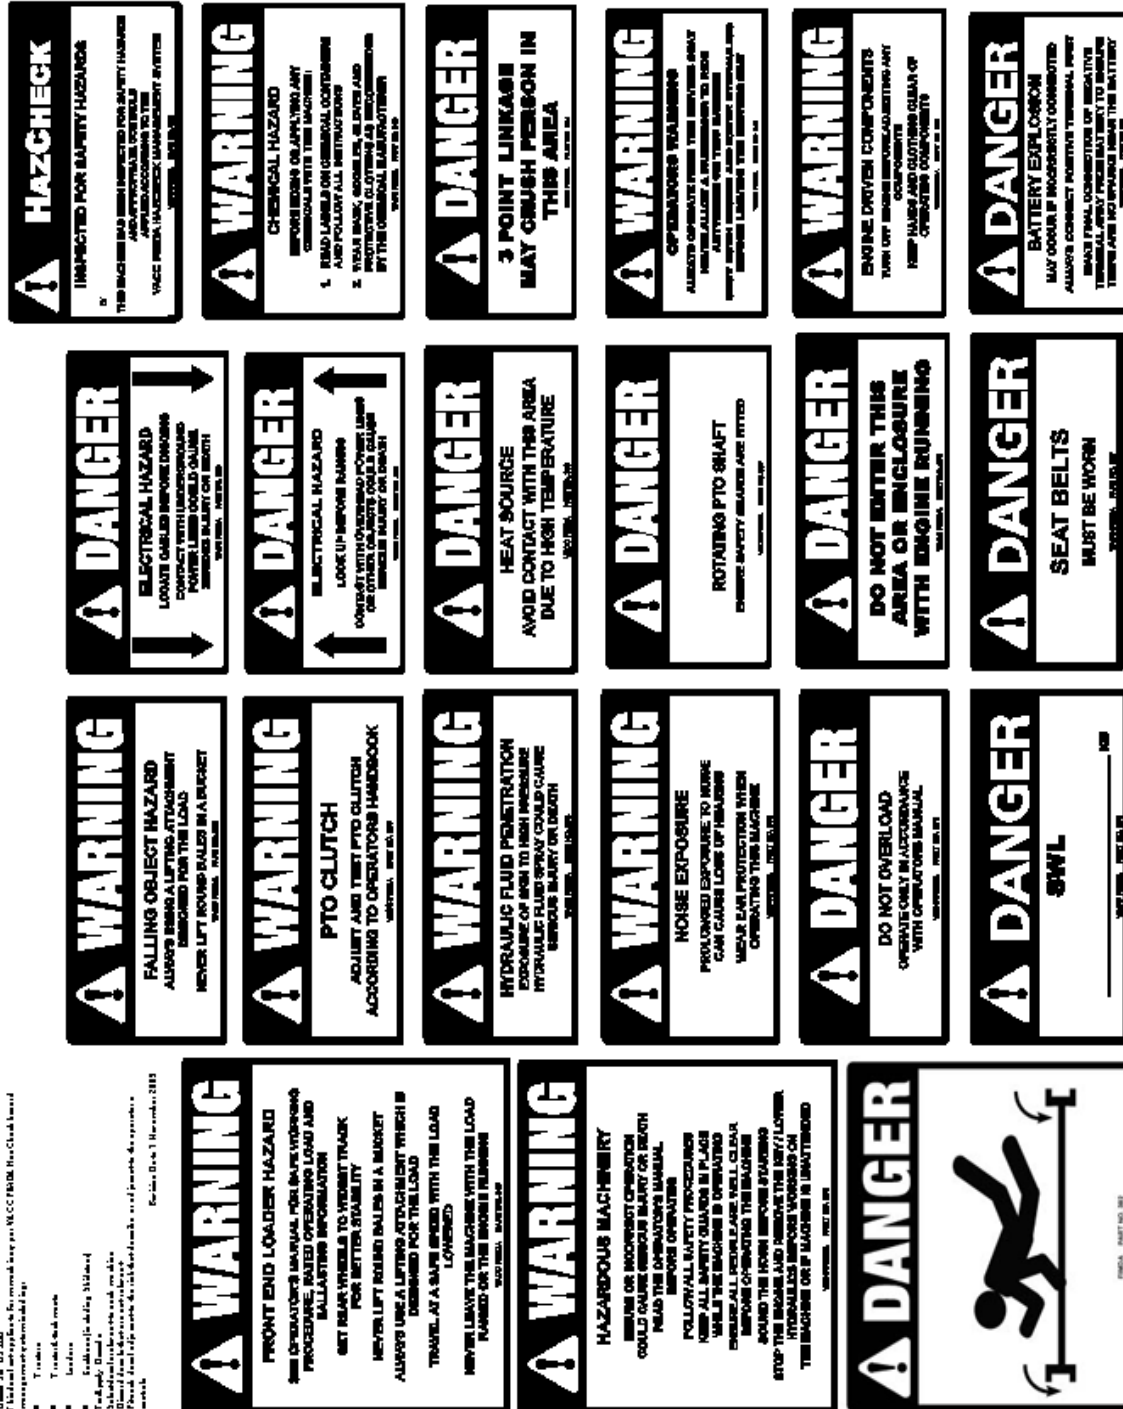

Refer to the HazCheck Decals Order Form for pricing.

HazCheck Decal Sets

HazCheck Decal Set DS200

This Decal Set contains one of each HazCheck Decal applicable to Tractors, Tractor Attachments, Loaders & Backhoes (including Skidsteer).

Each individual decal is also available in the decal sheet format. Refer to page 15 for information on decals included in Decal Set DS201.

Model No. DS 200
This decal set is provided for informational purposes only. It is not intended to be used as a substitute for the operator's manual.
© 2015 HazCheck Management System
All rights reserved.
Printed in the USA
Form DS200-1501-01

HazCheck Decal Set DS201

This Decal Set contains one of each HazCheck Decal applicable to Crop Cutting & Ride on Self Propelled (including headers).

Each individual decal is also available in the decal sheet format. Refer to page 15 for information on decals included in Decal Set DS201.

Decal Set DS 201
 This decal set applies to farm machinery as per VACC FM/DA HazCheck hazard management system including tractor or self propelled machines for:
 • Crop Cutting
 • Ride On Self Propelled including header
 To Apply Decals:
 • Select decals relevant to each machine. Discard decals that are not relevant.
 Fit each decal to comply to the risk that they describe or refer to in the operator's controls.
 Revision Date 1 November 2000

<p>WARNING HAZARDOUS MACHINERY FAILURE OR INCORRECT OPERATION COULD CAUSE SERIOUS INJURY OR DEATH TO THE OPERATOR'S BUNNUL. FOLLOW ALL SAFETY PROCEDURES KEEP ALL SAFETY GUARDS IN PLACE WHILE THE MACHINE IS OPERATING. INSURE ALL PEOPLE ARE WELL CLEAR BEFORE OPERATING THE MACHINE. SOUND THE HORN BEFORE STARTING ROUND THE HORN AND REMOVE THE KEY/LOWER HYDRAULICS BEFORE WORKING ON THE MACHINE OR IF MACHINE IS UNATTENDED.</p>	<p>DANGER EXPOSED CUTTING BLADES DO NOT LEAVE THE DRIVERS SEAT UNTIL ALL MOVEMENT HAS STOPPED.</p>	<p>WARNING PTO CLUTCH ADJUST AND TEST PTO CLUTCH ACCORDING TO OPERATORS HANDBOOK.</p>	<p>WARNING HYDRAULIC FLUID PENETRATION EXPOSURE OF SKIN TO HIGH PRESSURE HYDRAULIC FLUID SPRAY COULD CAUSE SERIOUS INJURY OR DEATH.</p>	<p>DANGER ROTATING PTO SHAFT INSURE SAFETY GUARDS ARE FITTED.</p>	<p>WARNING NOISE EXPOSURE PROLONGED EXPOSURE TO NOISE CAN CAUSE LOSS OF HEARING. WEAR EAR PROTECTION WHEN OPERATING THIS MACHINE.</p>	<p>DANGER BATTERY EXPLOSION MAY OCCUR IF INCORRECTLY CONNECTED. ALWAYS CONNECT POSITIVE TERMINAL FIRST MAKE FINAL CONNECTION LAST. NEGATIVE TERMINAL AWAY FROM BATTERY TO ENHANCE THERE ARE NO SPARKS NEAR THE BATTERY.</p>	<p>DANGER HEAT SOURCE AVOID CONTACT WITH THIS AREA DUE TO HIGH TEMPERATURE.</p>	<p>DANGER ROTATING AUGER HAZARD THIS AUGER MUST NOT BE OPERATED WITHOUT A GUARD THAT PREVENTS ACCESS TO ROTATING COMPONENTS.</p>	<p>DANGER DO NOT OPERATE NEAR BYSTANDERS DEATH MAY RESULT FROM BYSTANDER CONTACT WITH MOVING MACHINERY, PROJECTILES OR CHEMICAL SPRAY.</p>	<p>DANGER DO NOT ENTER THIS AREA OR ENCLOSURE WITH ENGINE RUNNING.</p>	<p>DANGER ROTATING OR MOVING MACHINERY KEEP ALL SAFETY GUARDS IN PLACE DO NOT OPERATE WHILE WEARING LOOSE CLOTHING, JEWELLERY, UNRESTRAINED LONG HAIR OR ANYTHING THAT COULD BECOME ENTAILED OR RESTRICT VISION.</p>	<p>DANGER SEAT BELTS MUST BE WORN.</p>	<p>HAZCHECK INSPECTED FOR SAFETY HAZARDS BY _____ THIS MACHINE HAS BEEN INSPECTED FOR SAFETY HAZARDS AND APPROPRIATE CONTROLS APPLIED ACCORDING TO THE VACC FEM/DA HAZCHECK MANAGEMENT SYSTEM.</p>

Decals Included in Decal Sets

The following tables show which individual decals are included in each Decal Set.

Decals Included in DS200	Description	Decals Included in DS201	Description
345	Front End Loader Hazard	353	Hazardous Machinery
346	Chemical Hazard	354	Exposed Cutting Blades
347	Operators Warning	355	Noise Exposure
349	Electrical Hazard (Up)	356	Rotating or Moving Machinery
350	Electrical Hazard (Down)	357	Rotating PTO Shaft
351	Engine Driven Components	358	Heat Source
352	Falling Object Hazard	370	Do Not Operate Near Bystanders
353	Hazardous Machinery	372	HazCheck Inspected
355	Noise Exposure	373	Hydraulic Fluid Penetration
357	Rotating PTO Shaft	376	Do Not Enter Enclosure
358	Heat Source	377	Seat Belts Must be Worn
371	Do Not Overload	378	SWL
372	HazCheck Inspected	379	PTO Clutch Warning
373	Hydraulic Fluid Penetration	380	Rotating Auger Hazard
374	3 Point Linkage	381	Battery Explosion
376	Do Not Enter Enclosure	382	Entanglement (Diagram)
377	Seat Belts Must be Worn	383	Projectiles (Diagram)
378	SWL		
379	PTO Clutch Warning		
381	Battery Explosion		
382	Entanglement (Diagram)		

Decals Included in DS203	Description
346	Chemical Hazard
349	Electrical Hazard (Up)
353	Hazardous Machinery
355	Noise Exposure
356	Rotating or Moving Machinery
357	Rotating PTO Shaft
358	Heat Source
359	Do Not Climb on Machine
370	Do Not Operate Near Bystanders
372	HazCheck Inspected
373	Hydraulic Fluid Penetration
375	Severe Injury from Auger
376	Do Not Enter Enclosure
379	PTO Clutch Warning
380	Rotating Auger Hazard
381	Battery Explosion
382	Entanglement (Diagram)

HazCheck 'Inspection' Tags

HazCheck 'Inspection' Tags are available to show the inspection status of machinery on display. The tag is made from durable, weatherproof yellow vinyl and is attached to machinery item for resale when it arrives at your workshop. The stock number is then allocated and written onto the tag. Once the machine final inspection has been completed, the 'NOT' is torn from the tag along the perforated line. This indicates that there will be records of final inspection available.

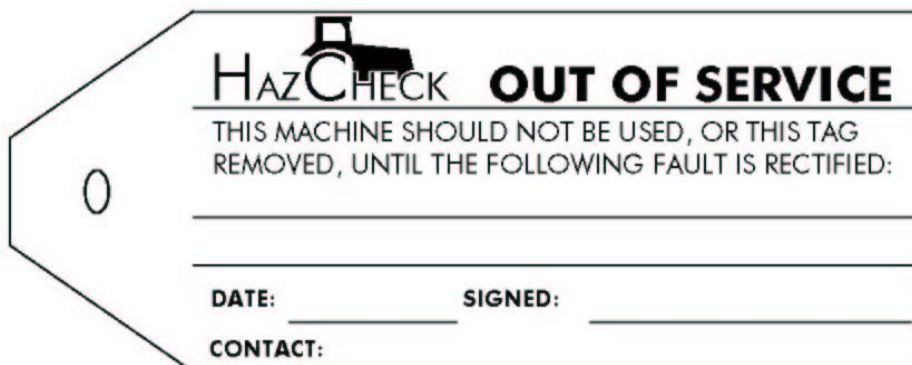

Pricing

Please refer to the HazCheck Products Order Form for further pricing and information.

HazCheck 'Out of Service' Tags

HazCheck 'Out of Service' Tags are available for use by technicians, who find machinery unsafe for further use until safety hazards are rectified, or when the machine is disabled during repair. The tag is made from durable, weatherproof red vinyl and is attached to warn operators not to use unsafe machinery.

Pricing

Please refer to the HazCheck Products Order Form for further pricing and information.

Farm and Industrial Machinery Safety Training Guide

The Farm and Industrial Machinery Safety Training Guide contains basic information regarding the safe use of farm machinery in the same easy to read, cartoon style of the previous safety manual. It also includes carbonised HazCheck Installation Safe Use Instructions (SUI) and the generic Final Inspection Report – All Machines (FIAM). This enables the guide to be used to provide final inspection and safe use instructions on suitable machines.

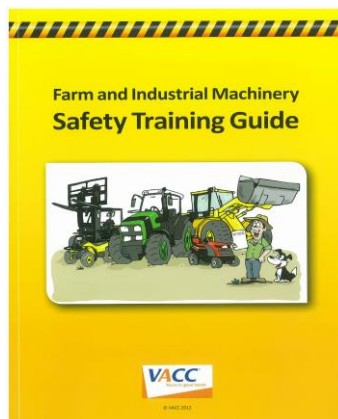

Records of Induction Training

The Farm and Industrial Machinery Safety Training Guide is invaluable evidence that the dealer has done everything that is 'reasonably practicable' to do, to provide relevant information to the purchaser. In turn, the guide can then be used by the purchaser to provide legal evidence that the all important induction training has been provided by a purchaser to the employee.

Benefits of providing the Farm and Industrial Machinery Safety Training Guide to every purchaser:

- Provides additional tangible proof of training provided to a purchaser; and
- Provides a simple way for a purchaser to record training provided to another operator.

Please note that the Farm and Industrial Machinery Training Guide should not be used as a substitute for the original Operators Handbook, or as a substitute for full hazard identification and risk control documentation.

Pricing

Farm and Industrial Machinery Safety Training Guides are available for

- \$5.50 each (incl. GST) in quantities of 100 or more, plus postage and handling
- \$7.70 each (incl. GST) in quantities of less than 100, plus postage and handling

Please refer to the HazCheck Products Order Form to place an order.

HazCheck Training

HazCheck Training is presented by the VACC Occupational Health Safety and Environment (OHSE) Unit.

HazCheck Training enables participants to:

- Understand the legal background of HazCheck
- Select and use HazCheck Forms on various machines
- Use the HazCheck Procedures to ensure proper implementation and maintenance of the system
- Develop the essential competency of risk assessment as it applies to the sale of used farm machinery

HazCheck Training is applicable to Dealer Principals, Sales Staff and workshop Supervisors who buy and sell machinery; and will result in the following competencies:

- Use or Reports – Successful participants will be able to use the HazCheck Appraisal Reports to identify OHS hazards, and to specify the need for further identification, assessment and control of safety hazards, by use of relevant HazCheck Final Inspection Reports. They will then be able to utilise the HazCheck Installation Safe Use Instructions Report (SUI), to communicate the safety controls required to machinery purchasers.
- Risk Assessment Competency – Successful participants will be able to manage the process of hazard identification, risk assessment and control, by the use of all HazCheck Forms and Reports. Each participant will also be able to conduct risk assessment on uncommon machinery using HazCheck Hazard Identification, Assessment and Control Report Forms.

Pricing

HazCheck Training is quoted individually based on the number of people, travel and accommodation. Please contact the VACC OHSE Unit on 9829 1138 for further information or an obligation free quote.

HazCheck Audit and Training

HazCheck audits are available for existing HazCheck participants. An audit is an on-site review of the following:

- HazCheck documents to ensure the latest version is in use
- Implementation effectiveness to ensure that HazCheck is implemented correctly
- Use of HazCheck Forms and Reports by staff members
- Staff training update

A written report of the effectiveness of the HazCheck implementation and a HazCheck Certificate will be provided.

Successful completion of the HazCheck Audit also entitles you to advertise compliance machinery as having been inspected according to HazCheck requirements and to display the HazCheck Certified Logo.

Pricing

The HazCheck audit service is individually quoted to include travel and accommodation. Please contact the VACC OHSE Unit on 9829 1138 for further information or an obligation free quote.
